

Master Oak BPIR Declaration

Version: Version 1

Designated building product: Class 1

Declaration

Big River Group (NZ) trading as Plytech has provided this declaration to satisfy the provisions of Schedule 1(d) of the Building (Building Product Information Requirements) Regulations 2022.

Product/system

Name	Master Oak
Line	
Identifier	MASTEROAK

Description

Master Oak combines the unique look and feel of original oak with the unbeatable qualities of a HPL: more scratch resistant, colourfast and easy to keep clean.

Bonded durably on two sides of Latvian Birch, Master Oak's matt finish delivers a luxurious appearance and has a unique pattern just like original oak. The natural appearance of Master Oak is enhanced by the different types of pores and depth variations throughout the panel.

Scratch-resistant: three times more scratch resistant than Oak veneer.

Colourfast: a timeless look and colours that stay beautiful.

Stain-resistant: easy to clean and maintain.

Scope of use

Kitchen and bathroom cabinetry (vertical surfaces). Residential, commercial, office, retail and hospitality fitouts. Wall linings.

Conditions of use

The surface of Master Oak must never be treated with products containing abrasive substances, abrasive sponges, sandpaper or steel wool. Products with very high acid or alkaline content should be avoided as they can stain the surface. Avoid furniture polishes and wax based cleaners as they form a sticky layer to which dirt adheres.

Contributions to compliance

Code Clauses.

B2 Durability B2.3.1 (c)

F2 Hazardous Building Materials F2.3.1

Compliance Pathways.
